THE FINCASTLE SUFFERERS. - A private let ter received here yesterday, says that 52 families were deprived of their homes and every material thing they possessed, by the late fire at Fincastle, in Botetourt county, Virginia. Forty families are, in consequence, occupying the Court House. FROM WASHINGTON.

WASHINGTON, May 12-3 p. m. CONGRESS.

The Senate considered the biff for reducing the army. An amendment by Mr. Hamlin making the force retained 30,000 in lieu of 25,000 as pro

posed by the bill, was adopted. The House of Representatives has passed the morning in considering the report of the committee on the decline of American commerce, without definite result.

The House committee of commerce have agreed to report a bill providing for a United States survey of the Rappahannock, James and Appoinatox rivers, with a view to further legislation for improving the navigation of those

streams. The Reconstruction Committee had fixed today for the further consideration of the Georgia bill, but had no quorum.

The House Committee on Elections voted to day to pay Louisianians contesting seats the following amounts: St. Martin \$2,500, Sypher \$3,500, Hunt \$1,500.

Goy. Bullock has not yet appeared in answer to the summons of the Senate Judiciary Committee which is investigating the charge of bribery in reference to the Georgia bill.

Bloody Affray.

Sr. Louis, May 12 - A dispatch from Allenville, on the Iren Mountain railway, pives an account of a bloody affray there yesterday be tween two men named Johnson, a father and son on one side, and two men named Cummings and Comstocks, on the otherside. Young Johnson received a mortal wound, whereupon, he shot and killed Cummings. The elder Johnson then beat Comstock with a club until he was senseless, and he will probably die. The affray grew out of a disagreement in the settlement of a business matter. Cummings and Comstock made the first assault.

THE AUDITOR OF THE TREASURY .- In the oming election, there is no office within the gilt of the voters of Alexandria, more vitally important to the best interests of the city, and especially to its financial success, than that of Auditor. His position is a peculiarly responible one, and calls for the greatest care on the part of voters, (prespective of political or party projudices), to be assured that it be filled by a man of sound judgment, great discretion, and seitled principles. It may not be generally known that the Auditor has to adjust and eredit Att. accounts for and against the Corporation, certifying them to the treasurer, and upon his certification ALONE, countersigned by the Mayor, the treasurer is authorized to disburse the city funds. He has the rental ac counts to keep, to attend to all sales of real estate on account of taxes, &c., to determine the probable revenue, for each year, and the probable demands upon the treasury, to arrange the stock account of the city, its liabilities and dividends, and in a word to stand before our

treasury door, the guardian of its reputation. We are glad to see that our honored friend and beliew citizen Robert S. Ashby, esq., in accordance with the carnett wishes of many voters and tax payers, has announced himself a candidate for this responsible position. We urge his election for the reason that he will assuredly be the right man in the right place TAX PAYER. [1:1

SPECIAL NOTICES. An Old Fallacy Exploded.

Thirty or forty years ago, it was the fashion te administer powerful purgatives as "spring medicines." Terrific doses of salts and senna, calomel and jalap, or glauber salts were given to all the members of a fami y, whether sick or well, by way of preparing them for the warm weather in prospect. This pernicious custom is nearly obsolute, but there are some old Bour-bons of private life, incapable alike of forgetting anything or learning anything, who obs inately cling to it still. Nothing could be more permicious, more utterly unphilo-ophical, than such an onslaught on the vigor and elasticity of the system. In order to enable the physical structures to resist the enervating effects of spring damps and summer heats it should be toned and reinforced, not relaxed and weakened. The best medicine agent for this purpose is Hostetter's Stomach Bitters. Its effect is to tone the stomach and liver, gently relieve the bowels from obstructions, brace the nerves, improve the quality of the blood, stimulate the appetite and cheer the spirits. In this improved condition the organization i capable of resisting unhealthy influences, which would prostrate an enfeebled system. A vig prous digestion is absolutely essential to health, and there is no danger of the stomach faltering or failing in its important office if this genial vegetable clixir is taken regularly as a tomach-ic. None of the tonic tinctures or extracts will supply the place of the Bitters, for the simple reason that they operate as astringents only. In fact, in ordinary practice, five or six proscriptions would be required to produce separately, the beneficial results, which are effected simultaneously, and harmoniously by this single specific. my 9-oolw
